**Notice.**  
There will be preaching at Temperance Hall, at half past 7 o'clock this evening, by Rev. J. K. Lawson. All are expected to attend.

**Committee Meeting.**  
There will be a meeting of the Republican Executive Committee for Knox county on Monday, October 21st. A full attendance is desired.

**Personal.**  
Mr. David T. Vestal, who has been sojourning in Chattanooga, has made his headquarters in this city, and will be pleased to see his friends at the clothing house of his brother, Robert Vestal.

**Synod Meeting.**  
On yesterday Rev. Messrs. N. Bachman, P. D. Cowan, Wm. Aiken, I. W. Emery and Dr. James Rodgers left for Jonesboro', to attend the sessions of the Synod of the Presbyterian Church, which meets in that place to-day.

If you want something nice try our Fresh Asparagus and Celery Sauce at LEE & HOWARTER'S.

Lewis & Jackson, No. 64, Gay street, are also agents for the sale of Season Tickets for the Fair.  
C. W. CHARLTON, Sec'y.

**Philharmonic.**  
The members of this society are requested to meet in the Board of Trade Rooms, on Gay street, at 8 o'clock this evening. A full attendance is requested.  
By order of the Executive Committee.

**Local Miscellany.**  
There will be a meeting of the Medical Society to-night.

The 8 o'clock freight, while switching in the yard Wednesday night, was thrown from the track by a misplaced switch. A colored man, by the name of Ed. Nickols, was caught between the bumper of the cars, bruising his body and mashing one of his hands badly.

**Preparing for the Winter Trade.**  
Hoxsie & DePue are getting in a heavy stock of heating stoves, suitable for the school, office, school room or anywhere else, of all sizes and varieties. Their line of cooking stoves is large, embracing the favorite styles, at the head of which stands the celebrated stove, "Fashion," one of which latter, with great liberality, they offer as a premium at the Fair next week.

**The Congressional Canvass.**  
A private letter from Livingston brings information of the arrival of Messrs. Thornburgh, Garrett and Caldwell, safe on the other side of the mountains. Caldwell is said to be "blue," Garrett is fighting covetousness and charging that the one that nominated Caldwell was a "packed" affair. Thornburgh enjoys the fight and is making a fine impression. His friends claim that he is making votes by the hundreds.

**The Force of Habit.**  
Democratic editors have much to contend against when trying to play the role of gentlemen. "To smoke," says Greeley, "is a Democratic virtue. To chew is that virtue intensified. To drink rum is that virtue in the superlative degree." These are peculiarities of Democratic editors as well as of the masses, and one not to be mistaken ear-mark of Democratic writers is the writing of God with a "g."

The Press and Herald corps of editors have this latter habit so fastened upon them that they write "Gicks" for "icks."

For fine New York Cheese, go to LEE & HOWARTER.

**Strawberry Plains Items.**  
There is but little excitement about politics in this locality just now. In fact, the farmers are too busy engaged in gathering corn and sowing wheat, this fine weather, to waste their time in discussing the political issues of the day.

Everybody and his sweetheart, from the tending the Eastern Division Fair, but from what I can learn, our local agents have met with rather poor success in selling prize tickets; yet, hundreds who would not buy from country agents will purchase tickets in your city.

Messrs. Dowd and Caldwell have shipped a fine lot of horses from this point South last week. Base Ball has again made its appearance in our fields. Lookout for broken fingers and black eyes.

The wheat is nearly all taken and prices are ranging higher. Bacon is scarce, but hogs are numerous and fat.

Go to the Knoxville Ten Hong for your fine canister Teas of all descriptions. Sold only by LEE & HOWARTER.

HALL OF E. T. LODGE, No. 34, I. O. O. F.

In pursuance with a published call a number of the members of Knoxville Lodge, No. 138, I. O. O. F., and East Tennessee Lodge, No. 34, I. O. O. F., met at Odd Fellows' Hall at 9 o'clock, A. M., Oct. 6th, 1872, brother S. C. Morley, N. G., of East Tennessee Lodge, No. 34, occupying the chair. Upon motion Brother E. W. Adkins was appointed Secretary, and meeting and brother Wilcox, Lewis, Farham and Adkins a committee to draft resolutions suitable to the memory of our deceased sister, Mrs. Kate Samuels, wife of our brother E. Samuels, P. G., who departed this life Friday night, the 4th inst., at 11 o'clock, and on Monday evening, the 7th inst., the committee offered the following which was adopted:

WHEREAS, In the death of sister Samuels, the Daughters of Rebecca have lost a zealous member, a firm and sincere believer in the principles of the Order, one who was ever ready and willing to extend the open hand in friendship or distress. She endured the pains and trials of her last illness with forbearance, with patience, with courage and died in peace.

Resolved, That in the death of Sister Samuels the Daughters of Rebecca have lost a tried and true sister; her family a kind and loving member, her husband an affectionate and devoted wife and her children a fond and tender parent.

Resolved, That while we bow in humble submission to the decree of Providence, nevertheless we can not but regret the affliction which has removed our sister from us by death.

Resolved, That the Daughters of Rebecca, of Knoxville Lodge, No. 138, I. O. O. F., and of East Tennessee Lodge, No. 34, I. O. O. F., sincerely sympathize with her bereaved husband, family and friends.

Resolved, That a copy of the above be sent to each of the city papers for publication and one to the husband of the deceased sister.

**A Card.**  
To the People of Anderson and Knox Counties: FELLOW CITIZENS: In making up my mind to ask your votes to elect me to a seat in the General Assembly of Tennessee, I have been actuated by reasons personal to myself, as well as others, and more directly affecting the interests of the two counties I desire to represent. Of the personal considerations it is sufficient to remark, that I trust that the offspring of a laudable ambition, and have no mercenary motives whatever. It would be improper to parade my own merits before the public, if I have any, and I shall only suggest, that it may wish in this, as all other matters, to do so in the future as to the future of the memory of friends the mistakes of the past, and with the good will of any who may have been enemies. A public endorsement of those who have known me through the course of my past life, sometimes warmed, gilded and guided by the splendors of the sun of prosperity, and sometimes under the shadow and gloom of adversity, would be exceedingly gratifying to me personally.

And I am persuaded that the extraordinary drift of the political current of the times is such as to open up to the young men of the country an opportunity to repair much of the injury and correct many of the mistakes which have been perpetrated and are still adhered to and gloried in by that older class of politicians in the South, who live in the past and fail, or refuse, to comprehend the new order of things by which we are surrounded, and which should arouse in the mind of every patriot nobler aspirations for the future of his country.

I candidly confess to you, my fellow citizens, that I desire to occupy a position where I can come in contact with and take action in the molding into form the chaos of political affairs, which now seems to reign in Tennessee. Perhaps I misjudge the signs of the times. Perhaps it is an error of judgment in desiring to mingle with the disturbed state of political affairs. But, unless I am wholly deceived, the early deliverance of the people from partisan oppression is clearly foreshadowed by the present troubled condition of factional leaders; and I have something more than an impression, in deed it amounts to an opinion, that if instrumental in accomplishing some good for the people, through constant, prudent, thoughtful, and patriotic endeavors, which I promise shall be my purpose in your behalf.

These considerations may be attributed to the vanities of an aspiring mind. I shall not stop to resist that conclusion. Of the many matters of public concern the limits of this paper will not permit me to speak in detail. I claim to be one of the people, and think I have some knowledge of their wants. While I am a friend to all classes and desire the success of every character of business, and shall if elected look to the interests of all alike, yet I will be pardoned for the statement that I have a profound sympathy for the working men and mechanics of the country, of whose struggles I have some knowledge which results from actual experience, having spent several years of my life in the workshop at my trade. This statement is made that the workmen and mechanics may see that I am at least in a situation to sympathize with them. If elected to be the representative of the people, irrespective of party, though I am a Republican in principle and policy, on the existing questions of political economy. Respectfully yours,  
L. C. HOWE.

**Masks and Faces.**  
Ladies who mask their faces and necks with enamels endanger their health to no purpose. The plaster work deceives nobody. There is but one article known which will restore a bleached complexion, clear the complexion, and bring back the bloom where they have never heretofore existed, and that article is Hagen's Magnolia Balm. It performs this toilet miracle by infusing vitality into the skin. The floral and herbal juices of which it is composed gently stimulate the circulation in the minute blood vessels, and brace the network of nerves through which they pass. Thus quickened and strengthened the external covering soon acquires a fresh and healthy hue, and every trace of sallowness disappears. The palest of cheeks derive from the beautifying baptism of this delightful cosmetic a warmer hue, and the arms, hands and necks, a blonde lustre which the charlatans, who profess to make ladies "beautiful" forever, with their poisonous cement, can never hope to imitate.

**Take Notice.**  
Experience has demonstrated to me that a cash business is the only safe business. Acting upon this I have determined, that on and after the 15th of October, I shall sell goods only for cash. In the meantime, those who are indebted to me are requested to make payment. To do business I must have money. Imperative necessity demands it. My capital is to a great extent in the hands of my customers, and I must have it. Those in arrears will take due notice thereof and govern themselves accordingly. To my customers I extend sincere thanks for past patronage, and solicit a continuance of the same under the cash system, promising to sell goods much cheaper than can be done on credit. My books show accounts due me of about three thousand dollars and I must collect it.  
All goods delivered to customers in the city free of charge.

## COMMERCIAL.

KNOXVILLE WHOLESALE MARKETS.

CHRONICLE OFFICE, KNOXVILLE, TENN., October 8, 1872.

**Drug Market.**  
The market in drugs for the past week has been quiet, with few changes to notice. There is a decidedly better feeling in regard to Sulph. Quinine, and we confidently look for a decline very soon. Balsam Copaiba is a shade lower. Blue Stone steady, 15. A limited trade is looked for this week, as many of the country merchants are anticipating a visit to the city during the Fair, and will hold orders.

**Dry Goods.**  
A marked degree of activity was displayed by jobbers during the past week. Quite a number of merchants were in the city and bought heavily. Brown bleached sheetings and shirtings active. Prints active and in good request. Dress goods selling well; plain materials in good demand. The present week opens well, a good many merchants being in the city. The probabilities are in favor of a brisk week and a lively trade among all classes of jobbers.

**Grain and Produce.**  
**GRAIN.**—We notice an advance of 5 cents on per bushel on all grades of wheat. There were no large transactions during the past week, only small lots being offered. The greater part of the wheat in the country is in the hands of farmers who are able to hold for an advance in prices and who seem disposed to do so. The lots that are offered find ready sale at quotations.

**OATS.**—Dull with no change in quotations.  
**CORN.**—Steady at quotations with no activity in the market.

**FRUITS.**—There is a fair demand for dried fruit at quotations with a scarcity in the market, owing to the fact that the country merchants paid more for it than it is bringing at present.

**FLOR.**—Firm, with sufficient supply for local demand. The city mills are not turning out their usual amount on account of the low water. The rain Sunday night will enable them to supply the demand for the present week.

**Quotations of leading articles:**  
**WHEAT.**—New prime white, active, \$1.35a 1.40; amber \$1.25a 1.30 per bushel; red, \$1.20a 1.25.

Consignments Solicited.

ATLANTA, Oct. 1, 1872.  
We are now having fine weather, night and morning cool. Favorable weather for cotton picking. Indeed we are receiving more cotton than at any other previous year at the same time. In the face of these facts the price is now advancing from 15c, the lowest prices to 16c the present price, with stiff holders, all of which tend to show short crops. Trade is active in all departments, many goods moving out.

Corn, Flour and Wheat are active at quoted prices. Butter is tending upward. Some improvement in the demand for Oats. In light produce, wheat is very scarce and hard to get at any price. Eggs are in better supply and lower prices. We do not look for any serious fall in the price until our State Fair is over. Chickens in good order meet with ready sale. Onions are held firm. Potatoes dull. Dried Apples are dull. Tallow in demand. Dried fruits are hard sale.

### THE ROMANCE OF CURE.

The many evidences of extraordinary cures that are daily reported as effected through

**DR. RADWAY'S**

### Sarsaparillian Resolvent

Ready Relief, and Perfect Purgative Pills, written testimony from all parts of the world, in support of the most extraordinary cures effected by the Sarsaparillian Resolvent, a medicine of such power, that it has been pronounced by Physicians and medical men in all countries, that these wonderful remedies are a mystery, that neither the science of analysis or chemical can explain. True, these medicines effect the most marvelous cures, and restore the dying to life, and relieve the most wretched suffering victims of his cruel, and deadly diseases. Such wonders of Modern Chemistry as the Sarsaparillian Resolvent, READY RELIEF & RADWAY'S PILLS, are without parallel in the history of medicine, for there are some infirmities and diseases that are considered as incurable, and sure death. Yet the most astounding cures have been made through these remedies of some diseases that have never been known to be cured by medicine.

**CONSUMPTION, SCROFULA, WHITE SWELLING.**—Tumors of the Womb, Stone in the Bladder, Bright's Disease of the Kidneys, have been pronounced incurable. Cancers, Ulcers, Swellings, Stone in the Bladder, Hemorrhoids, Constipation, Dropsical Effusion, Ascites, and Calculus Concretions, have been cured by RADWAY'S PILLS, and the Sarsaparillian Resolvent.

**Palsy, Paralysis, DYSMENSTRUATION.**—That threatens a living death—daily rotting away of the limbs and flesh of the body, and the most terrible of all diseases, the Palsy, Paralysis, DYSMENSTRUATION, have been cured by RADWAY'S PILLS, and the Sarsaparillian Resolvent.

**Dr. Radway & Co.** have never claimed one hundredth part of the curative virtues of their remedies as is ascribed to them by the people who have used them for or been in need of such diseases as are mentioned. Dr. Radway, after successful treatment with their remedies, knew they would cure, were enumerated in their country, so that many of the extraordinary cures that have been reported as effected by their remedies, are in the discovery of their remedial agents as in those who have been rescued from death, and made whole and sound.

As many persons derided their extraordinary power, from the fact of their disappointment in the use of other advertised remedies—and some believed it to be a humbug, and others, who were in need of such diseases as are mentioned, have been cured by RADWAY'S PILLS, and the Sarsaparillian Resolvent.
